SERHII SHTELMAKH

31-416 Krakow, Poland | +48793265924 |shtelmah.serhiy@gmail.com|
https://www.linkedin.com/in/serhii-shtelmakh-9a0264b0/

QA Automation Engineer with 10+ years of experience designing and maintaining automation solutions across Java and Python ecosystems, primarily in the banking domain. Experienced in building and evolving test frameworks for UI and API layers, with a focus on maintainability, reliability, and integration into CI/CD pipelines (Jenkins, GitLab CI). Contributed to improving test coverage, shortening regression cycles, and reducing production defects by introducing API-level testing, stabilizing test environments, and embedding automated checks earlier in the development process.Comfortable working across teams to improve testability, support release processes, and promote practical, scalable QA practices. Holds advanced certifications, including **ISTQB Advanced Level** and **Oracle Fusion AI Agent Studio Foundation Associate**,**Claude Code 101,Claude Code.**

TECHNICAL SKILLS

- **Core Skills:** Java, Python,Javascript/Typescript, C#, Selenium, Selenide, Playwright, TestNG, JUnit, PyTest, Cucumber (BDD), Automation Framework Design, REST, SOAP, REST Assured, Postman, JSON, Jenkins, TeamCity, Git (GitHub, GitLab), Maven, Gradle, Docker, CI/CD Pipelines
- **Testing Expertise:** Test Management, Test Case Design, Test Planning, Defect Tracking, Test Strategy, Requirements Analysis, Test Execution, Regression Testing, Performance Testing, Apache JMeter, Grafana, Splunk, Log analysis,Chaos Engineering, OWASP, Static Analysis, Dynamic Analysis
- **Data & Infrastructure:** SQL (Oracle, MS SQL Server), MongoDB, Cassandra, data validation, query optimization, AWS, Azure, containerized test environments, AWS Lambda, Azure DevOps,Linux, UNIX, Windows, command-line tools
- **QA Practice & Tools :** Agile (Scrum), SDLC/STLC, Shift-left testing, Risk-based testing, Jira, TestRail, Zephyr, Swagger/OpenAPI,AI/ML in testing, LLMs, AI agents, vector databases

PROFESSIONAL EXPERIENCE

Luxoft, Krakow — Aug 2021 - May 2026

QA Automation Engineer
Domain: Investment Bank

- Designed and enhanced automation frameworks using **Java, Selenium, Cucumber, Python, and Playwright**, increasing automated test coverage to **85%**
- Contributed to an automation framework supporting **200+ UI & API test cases**, reducing regression time by **~75%**
- Integrated test suites into CI/CD (Jenkins, GitLab), enabling **2x faster releases**
- Reduced production defects by **30–40%** through shift-left and API-first testing
- Implemented Docker environments for testing, resulting in a **70%** reduction in environment-related failures and establishing a standardized process for all new projects
- Spearheaded the implementation of automated SQL data validation scripts, reducing data validation execution time by **20%** and improving the speed of data reconciliation processes
- Used AI tools in everyday test engineering activities to accelerate test case design, automate script generation, improve defect analysis, and optimize regression testing within automation
- Collaborated closely with **Business Analysts** during requirement analysis and sprint planning to refine acceptance criteria, clarify business needs, and ensure comprehensive test coverage aligned with business objectives.

Luxoft, Krakow — Jun 2018 – Aug 2021

QA Automation Engineer
Domain: Investment Bank

- Designed and developed robust automation frameworks using Selenium and Java, supporting a test suite **100+** end-to-end test cases and improving test execution speed by approximately **40%**
- Improved UAT acceptance rate to **~95%** through better requirement validation
- Reduced post-release defects by **~25–30%** via automation and process improvements
- Executed performance testing (JMeter), improving system response time by **~35–40%**
- Optimized QA processes by identifying and eliminating redundant steps, saving the team approximately **10 hours** per testing cycle and improving overall testing throughput

Avanade, Krakow Feb 2017 – April 2018

QA Analyst | QA Manager
Domain: Healthcare

- Led QA automation efforts for a healthcare platform, driving the implementation of JMeter performance testing and reducing overall testing time by **20%**
- Orchestrated user acceptance testing (UAT) and stakeholder communication, coordinating testing cycles and ensuring alignment to improve UAT defect resolution rate by **20%**
- Enhanced regression testing efficiency by developing improved scripts for web and API, identifying gaps and reducing post-release defects by **25%**
- Established QA processes and documentation standards, creating comprehensive procedures that saved **10 hours** per QA cycle

Luxoft|Miratech| MTS | QA Light Dec 2013 - Dec 2016

QA Automation Engineer

- Developed automation scripts for web and API testing, implementing analyzed test cases using Selenium and Postman to enhance testing efficiency, achieving a **30% reduction** in manual testing time over 6 months
- Executed comprehensive regression, integration, and performance testing, coordinating with cross-functional teams to validate software releases and ensure high-quality standards, contributing to a **25% decrease** in post-release defects across three projects
- Analyzed existing software implementations for improvement opportunities by identifying critical bottlenecks in the testing process, resulting in a **20% increase** in overall test coverage within the project scope
- Integrated with strategic partners and vendors for QA activities by collaborating with third-party vendors to implement best practices in innovative testing solutions, enhancing collaboration that led to a **15% faster** turnaround on project deliverables

EDUCATION

Vinnitsya National Technical University
Master of Science, Laser and Optoelectronic Engineer
Vinnitsya State Pirogov Memorial Medical University
Master of Science, Dentistry

CERTIFICATES

Claude Academy: Claude Code 101, Anthropic Sep 2026
Oracle Fusion AI Agent Studio Foundation Associate - **Rel1(1Z0-1145-1)**, Oracle Jan 2026
[PCEP-30-02] PCEP - **Certified Entry-Level Python Programmer**, Python Institute Jan 2024
ISTQB Certified Tester Advanced Level - **Technical Test Analyst**, International Software Testing Qualification Board (ISTQB) Oct 2017
ISTQB Certified Tester Foundation Level - **Certified Tester (CTFL),** International Software Testing Qualification Board (ISTQB) Apr 2014
